

IN CASE OF AN ACCIDENT

To ensure your own safety and protection, you need to react quickly and correctly at the time of an accident, getting the right information from the right people.

What to Do:

1. **Stay calm.** Turn off the engine, leave your car where it is, if it's safe to do so. Otherwise, drive to the side of the road or a well-lit parking lot.
2. **Check for injuries.** If you think you are injured, stay in your car, relax and ask someone to call for help.
3. **Assess the situation.** NEVER walk directly between two cars - if one is hit again, you could be trapped between.
4. Provide medical help to others ONLY if you are trained to do so.
5. **Call the police,** dialing 9-1 -1 or 0. Do not say the accident was your fault, even if you believe it was.
6. **Be tactful** and courteous, even if angry.
7. **Obtain information** from the other driver i.e. names and insurance information (see reverse side of pamphlet for further detail) and refrain from admitting fault.
8. Know where you want to get the damage to your vehicle repaired.
9. **Get a copy of the police report** and notify your local Department of Motor Vehicles of the accident.

Main Auto Body, Inc.
